

.416 WEATHERBY

This is Weatherby's entry into the .416 caliber cartridge race. Following the Weatherby philosophy that "bigger is better," it shares the same case as the .378 and .460 Weatherby Magnums.

The .416 Weatherby factory ammunition produced 60,000 P.S.I. in our test barrel. These loads to not exceed that pressure.

.416 WEATHERBY				
Gun	DOUGLAS	Max Length	2.913"	
Barrel Length	26"	Trim Length	2.903"	
Primer	FC 215	OAL Max	3.750"	
Case	WBV	OAL Min	--
